

MARCH 15, 2018

ONLINE BIDDING

PRESENTATION

Online Banking created an incredible convenience for consumers and huge efficiencies for the Banks. We no longer have to drive to a local bank branch to deposit a cheque or pay a phone bill, and the bank no longer needs to receive, transpose, track and coordinate all of the paper involved in these transactions. Convenience and savings to the consumer, extreme cost savings and efficiency to the bank, a true win win.

Online submission are having the same effect on construction tendering, and procurement across Canada. Through Eteгри and COOLNet Alberta, owners can receive 100% compliant bids online, instantly tabulating results from the most complicated bid forms, evaluating, sharing, and storing information in seconds. Bidders and vendors will no longer be travelling across our cities and provinces to merely 'drop off a cheque', saving time and money in the process. A win win for owners and bidders.

Implementation is straight forward, and we are here to help through the entire process. We look forward to helping you realize new levels of productivity and efficiency in your procurement process.

Eteгри Information Session (Online Bidding)

Thursday, March 15/18

Morning Session: 10:00 am

Afternoon Session: 2:00 pm

Registration is required
